Invitation for Inauguration lecture

Krister Wennerberg
26 January 2018, 14:00
Lundbeck Auditorium, Biocenter.

Programme
Welcome by Kristan Helin, Director of BRIC
Inauguration by Vice Dean Hans Henrik Saxild
Inauguration lecture by Krister Wennerberg, Professor & Group Leader

Understanding and targeting individual cancers using chemical systems medicine

On using functional profiling of cancer cells to assess their responses to cancer drugs and how that relate to the molecular changes in the same cells to better understand individual cancers, how to identify effective personalized treatments and how to be able to predict them in the clinic with molecular biomarkers.

The lecture will be followed by a reception outside the Lundbeck Auditorium.

All are welcome!
